Quant II Recitation Schedule

Spring 2015

	#	Week beginning	Topic	Concepts	Commands
		1/19/2015	**Monday MLK Day**		
Project 1	1	1/26/2015	Review	Structure of Stata data sets Syntax statements	help language
	2	2/2/2015	Complex variable creation	basic creation of indicator and interaction variables	bysort egen
	3	2/9/2015	Postestimation	F-tests estimation results	test, lincom outreg2, estout estimates save/use
		2/16/2015	**Monday President's Day**		
Project 2	4	2/23/2015	Creating indicators and interactions	factor variables	generate, replace recode fvvarlist
	5	3/2/2015	Graphing Subgroups		graph bar graph twoway lfit separate
		3/9/2015	**Mon-Fri Spring Break**		
Project 3	6	3/16/2015	LPM/Probit/Logit	predicted values	probit, logit predict
	7	3/23/2015	Marginal Effects	ave. predicted values ave. mfx	predict margins margins plot
		3/30/2015	**Thurs - Fri Easter**		
		4/6/2015	**Monday Easter**		
Project 4	8	4/13/2015	Missing data	Identifying missing obs. Creating missing dummies Identifying analysis sample Recreating estimation sample	misstable mvdecode/mvencode egen rowmiss() esample()
	9	4/20/2015	Macros/Loops	local/global Debugging	display pause foreach
